ABSTRACT

Compiled for educators, social workers, police officers, planners, and others interested in the problem of criminal justice for Native Americans, this bibliography cites 911 materials pertaining to American Indian justice. Covering the period from 1966 to 1975, citations were extracted from the following indices and abstracts: Readers' Guide to Periodical Literature, Social Sciences and Humanities Index, Index to Legal Periodicals, Crime and Delinquency Literature, Abstracts of Criminology and Penology, Crime and Delinquency Abstracts, Poverty and Human Resources' Abstracts, Psychological Abstracts, and Sociological Abstracts. The 10 sections cover: general works which deal with the socio-historical situation of Indians in the U.S.; bibliographies and indices which deal specifically with Indian justice and other relevant topics; cultural and social organization; social psychology of Native Americans; social problems, i.e., alcoholism, criminal behavior and deviance, racial discrimination, poverty, health instability, protest confrontations between Native Americans and the state and Federal government; urban problems; administration of Indian justice; Indian law and civil rights; property and resource rights; and social policy and reform. PREFACE

One of the most ignored and powerless minorities in the United States is the Native Americans. This first seems to be reflected in the relatively small amount of academic literature devoted to the topic of Indian justice per se. In spite of the lack of interest from those in the academy, a fairly large volume of literature exists in popular sources. This would seem to indicate that Indian justice is an important issue from the general public's point of view.

No doubt a great deal of the public's interest has been generated from the recent conflicts between Native Americans and governmental authorities. FBI raids, the occupation of Wounded Knee, political trials, and other confrontations have forced attention onto the problematic nature of the creation of law and the administration of justice among Native Americans.

Increasingly, the public's interest in Native American problems is being translated into some response in other sectors of society. At the federal level, several politicians are becoming concerned with the inadequacy of past and current Indian policy. Additionally, some state governments are attempting to include consideration of the Indian justice issue in their criminal justice planning efforts.

To a lesser degree, some persons within the academic community are also interested in the development of Indian justice as an area of research and action. At least potentially, social and behavioral scientists could play an important role in understanding and modifying criminal justice related problems of Native Americans.

While this bibliography was compiled for all of the aforementioned groups, it is hoped that those in academia find it most useful in developing research on problems of Indian justice policy. Other groups, such as social workers, educators, police officers, planners, etc. should also find this bibliography useful.

In terms of the sources of compilation, items were extracted for the period of 1966-1975 from these indices and abstracts:

Readers' Guide to Periodical Literature

Social Sciences and Humanities Index

Index to Legal Periodicals

Crime and Delinquency Literature

Abstracts of Criminology and Penology

Crime and Delinquency Abstracts

Poverty and Human Resources' Abstracts

Psychological Abstracts

Sociological Abstracts

Besides these sources, items were also taken from other bibliographies.

Hopefully, this bibliography will prove to be useful to researchers interested in the problem of criminal justice for Native Americans.

This research was supported by a Law Enforcement Assistance Administration Grant (72-CD-99-002) and was conducted by the Criminal Justice Educational Development Project Staff of the University of Nebraska at Omaha.

GENERAL WORKS

Most of the publications listed in this section deal with the socio-historical situation of Native Americans in the United States. Many of these historical accounts are books. While none of the references specifically relate to Indian justice, this general section is valuable in terms of providing a contextual framework for the justice issue.

## SOCIAL PROBLEMS

A multiplicity of topics are covered here. A significant number of items deal with alcoholism. Other social problems, e.g. criminal behavior and deviance, racial discrimination, poverty, health, and instability, have also been studied, and are included in this section. Additionally, some of the references pertain to protest confrontations between Native Americans and the state and federal government.

## ADMINISTRATION OF INDIAN JUSTICE

This section might be more appropriately labeled the administration of injustice. The operations of criminal justice agencies in dealing with Native Americans have been highlighted by acts of

violence and unequal treatment. While most of this apparent injustice has stemmed from the relations with law enforcement agents, judicial personnel, and to a lesser extent correctional personnel, have participated in the mistreatment of Native Americans.

A perusal of the items shows that four of the functional areas of criminal justice are included here. These areas are as follows:

1. Police and related law enforcement areas.
2. Prosecution and defense, including special legal services for Native Americans.
3. Judicial areas, such as jury composition and Native American judges.
4. Correctional programs and institutions.

Additionally, material is listed on the differing jurisdictional limits of federal, state, county, local, and tribal criminal justice agencies. The complexity of jurisdiction and authority seems to be a confounding factor in attempts to analyze the workings of any sort of legal system on reservations.

INDIAN LAW AND CIVIL RIGHTS

Most of the items here pertain to the general area of Indian law. This encompasses tribal law and sovereignty as well as the civil rights of Native Americans under the United States Constitution and other rights granted through legislative bodies. Of special interest are several symposiums on Indian law. Along with items on contemporary Indian law, some material was uncovered on Indian laws of the past.

## PROPERTY AND RESOURCE RIGHTS

With respect to Native Americans, the question of justice cannot be understood apart from the issues of property and resource rights. From a historical perspective, however, it is clear that land has

been at the roots of the conflict between Native Americans and the government. Ever since the first white settlers landed in North America, property relations with Native Americans have been characterized by a kind of invasion and domination process. Even today, the white man's appetite for the Native Americans' land, minerals, water, and wildlife does not seem to be satiated. And as some Native Americans claim, land is still the issue which underlies most of the relations between Native Americans and the government.

## SOCIAL POLICY AND REFORM

Items in this section focus on the nature of federal and state Indian policies. With the ineffectiveness of past policy and the current protest about the social, cultural, economic, and political condition of the Native American, there seems to be pressures for policy analysis. In fact, a federal commission, headed by Senator James Abzourek of South Dakota, has been created for this purpose. Presently, however, only a scant amount of literature has focused on past and present problems of Indian policy.
